The Italian warship *Re Umberto*, lately launched, is the largest warship yet built. Her capacity is 13,298 tons. She is 400 feet, 4 inches long, 76 feet, 9 inches beam and draught 23 feet, 8 inches. She cannot carry coal enough, draws too much water for most harbors. The United States dynamite cruiser of 700 tons, and 7 foot draught, could easily destroy her.

The cost of the Indians to the United States, from July 7, 1776, to June 30th, 1886, was \$232,900,000 34, and the amount expended by the War Department for Indian Wars and incidental expenses therefrom from July 4, 1776, to June 30, 1886, was \$666,339,277 68, making the total cost \$899,239,282 02.

Within a radius of forty miles of Rochester, N. Y., are more than 1,500 fruit evaporators, employing, during Fall and Winter, 30,000 hands. This season the production is about 30,000,000 pounds, worth \$2,000,000, most of which is exported. That radius gave Harrison a large majority.

Chauncey M. Depew was afraid of Iowa, and he had good reason for it. Iowa has, for the first time in thirty years, elected a Democratic State officer. He was elected Railroad Commissioner by a vote 33,000 ahead of his ticket—the railroads opposed him.

It is a fact not well known that native sulphate of baryta is an active poison to rats, mice and dogs. Mixed with lard it is readily eaten by them. It should replace the more dangerous poisons so much used for this purpose.

A stone, 14½ feet long, 6 high, and 5 feet, 3 inches wide, and weighing 35 tons, was recently cut from the Pilkington Quarry, England. It is without crack or flaw, and was transported 7 miles over a rough, hilly road by a steam road wagon.

George P. Murphy, an old resident of Marysville, and lately Engineer of the Fire Department, was killed by a railroad train on Sunday last. It is supposed that he was dragged, robbed and placed on the track.

An India rubber horse shoe, consisting of a rubber bottom fitting over or around frog and hoof, with a projecting rim, is a recent invention for which important advantages are claimed.

Harry Myers, the murderer of old John Lowell, was hanged at Placerville on the 30th of November. The coward wilted "like a dish rag," and was carried to the gallows by four men.

New York has 3,697 miles of underground electric wires, Brooklyn 2,100, Pittsburgh 1,000, Boston 400 and Chicago 200—a total of 7,397 miles, and more are building.

The United States, France and Russia are concentrating a fleet at Shanghai, to protect Corea from China, when she declares for independence.

A number of Republican candidates in San Francisco have demanded a recount, and the probability is that some of them will be counted in.

William H. Heald, of Delaware, has been appointed Examiner of National Banks for Oregon and the Territories of Washington, Idaho and Montana.

William Langley Northam, one of the founders of Sacramento, died at New York on Monday, aged 82 years.

The wife of the Governor-General of Canada refused to have Mrs. Langtry presented to her.

The Chicago News says anyone for Secretary of the Navy will be an improvement on Whitney.

Isaac S. Dement, of Chicago, is the fastest stenographer in the world. He took down 1337 words in five minutes.

Three Anarchist schools, for children, have been established in Chicago.

It is denied that the Pope congratulated Harrison upon his election.

An American palace car is to be built for the Emperor of Germany.

Adolph Palm, of Yolo, a Pioneer, died on Saturday last, aged 66 years.

It is estimated that New York city will have a population of 1,665,875 in 1890.

County Treasurer Winchell, of Redfield, Dakota, has shipped with \$12,000.

Rear Admiral Simpson, retired, died at Washington on Saturday last.

Fred. Grant wants to be Minister to China.

SACKVILLE WEST.

President Cleveland, in his message, says: For the close of the month of October last, occurrences of a deeply regrettable nature were brought to my knowledge, which made it my painful but imperative duty to obtain, with as little delay as possible, a new personal channel of diplomatic intercourse in this country with the Government of Great Britain. The correspondence in relation to this incident will in due course be laid before you, and will disclose the unardonable conduct of the official referred to, in his interference by advice and counsel with the suffrages of American citizens in the very crisis of the Presidential election then near at hand; also, in his subsequent public declaration to justify his action, superadding impugnation of the Executive and Senate of the United States in connection with important questions now pending in controversy between the two Governments.

The offense thus committed was most grave, involving disastrous possibilities to the good relations of the United States and Great Britain, constituting a gross breach of diplomatic privilege and the invasion of the purely domestic affairs and the essential sovereignty of the Government to which the Envoy was accredited. Having first fulfilled the just demands of international comity by affording full opportunity for Her Majesty's Government to act in relief of the situation, I considered the prolongation of the discussion to be unwarranted, and thereupon declined to further recognize the diplomatic character of the person whose continuance in such functions would destroy that mutual confidence which is essential to the good understanding of the two governments, and was inconsistent with the welfare and self respect of the Government of the United States. The usual interchange of communications has since continued through Her Majesty's Legation in this city.

BLAINE'S UNSELFISHNESS.—The North American Review for December contains a remarkable article by W. T. Sherman, entitled "The Hon. James G. Blaine," in which, among other things, are two remarkable letters. One is from Blaine to General Sherman, of date May 25, 1884, a time when it was generally believed that Blaine was moving heaven and earth to secure the nomination for President. The other letter is from Sherman, absolutely declining to accept the nomination. Sherman concludes with these words: "These letters prove absolutely that Mr. Blaine, although qualified, waived to me personally the nomination, which the world still believes he then coveted for himself. For copies of these letters I believe I have been importuned 1,000 times, but as a soldier I claim the privilege of unmasking my batteries when I please."

ELECTORAL VOTE.—The Sacramento Bee gives the official vote as follows:

Average Republican vote	124,782
Average Democratic vote	117,671
Republican plurality	7,111
Average Prohibition vote	5,747
Average American vote	1,539
	7,286
Add Democratic average	117,671
Total vote against Harrison	124,957
Average vote for Harrison	124,782
	175

The official canvass of the vote cast at the recent election for Supreme Court Justices resulted as follows:

LAND NOTICE.—Selden Hetzel, Register of the United States Land Office at Sacramento, has issued the following notice, under date of November 28, 1888:

"It is ordered: That after December 8, 1888, all applications for orders for publication of notices must be accompanied by a deposit with the Register of an amount sufficient to defray the expense of publication; except in mineral applications, when the customary agreement of publisher will be sufficient."

William Ackert, foreman painter on the new Manhattan bridge, over the Harlem, N. Y., fell from the bridge Saturday, a distance of 145 feet. He turned over twice in his descent, striking the water head first. He escaped unhurt and finished his work for the day.

The London Standard's correspondent at Rome says the French Government has secretly advised the Pope to leave Italy in the event of a rupture between France and Italy, and that he is offered protection in France.

The vote of California shows an increase of 53,261 over that of 1884—28,446 Democratic and 22,376 Republican. The vote indicates a population of 1,320,000.

Silas Scott, aged 80 years, died in Chico on Monday evening. He enlisted in the Union Army when over 50 years of age. He was a native of Maine.

The Winter in Washington promises to be a brilliant one. With Harrison and a Republican Administration why should it be otherwise?

On Saturday last, at San Rafael, Hall McAllister, the eminent lawyer of San Francisco, deceased.

The general Ohio situation in Washington is greatly mixed. McKinley is after the Speakership. Sherman, it is said, would like to go into the Cabinet, and can do so, but the present Legislature would elect his successor, and it is believed that Foraker has fixed for himself. This Mr. Sherman could not tolerate, and they are trying to plan some way to insure the defeat of Foraker and the election of Butlerworth. Sherman's going into the Cabinet will depend on the success of this plan.

Captain Ramsey, of the United States cruiser Boston, says that from inquiry, on arrival at Port-au-Prince, in regard to the seizure of the steamer Haytien Republic, he found that she had been selling munitions of war and going up and down the coast carrying insurgents. She was taken by a Haytien man-of-war and condemned, apparently in the regular way.

The Supreme Court has affirmed judgment in the case of Sealer vs. Montgomery, an action for slander, in which the lower Court gave judgment for plaintiff, and defendant appealed. It is of interest because of the ruling of the Court on appeal that the alleged slander (overheard by plaintiff) was a "publication" in the legal sense although spoken only by husband to wife.

Manufacturer of Acorn Dress Shirts, Collars, Cuff

Shirt Fronts, Ladies' Collars and Lace Neckwear

ALBANY, N. Y.

The latest shirt issued under the "Acorn" Brand is "THE WONDER," and it is also the best shirt ever made for the Trade.

The following are some of its principal points of excellence, a printed list of which is attached to each shirt:

- 1st—It has the finest and heaviest muslin ever put in a shirt. (Utica Nonpareil improved).
- 2—It has a 3-ply linen bosom.
- 3—It is of extra length.
- 4—It is reinforced, both back and front, extending and meeting under the arm where most needed.
- 5—It has the Tomlinson patent endless facing.
- 6—It is custom made and finish.
- 7—It cannot break or tear anywhere.

Like the Deacon's "one-hoss shay," it has no weak spot, and will never "give" anywhere, but, at the end of scores of years, it will dissolve into space—not a thread broken or a seam started.

Fathers will bequeath these shirts, purchased in early manhood, a priceless legacy to their children.

We expect a large demand for them to place in the corner stones of linen structures as evidence of the greatest triumph of modern civilization.

We are taking steps to put this crowning achievement of art into the "Acorn" agencies in London, Paris, Berlin, St. Petersburg and Constantinople, when it can not fail of instant and permanent success.
